## Bird Details:

Species:  Chicken  Turkey  Other; Please specify

Breed/Strain: Please specify  Age:  Weeks/Days Flock Code:

## Sample Details:

Houses Sampled:

Number of Samples Submitted:

## Additional Information:

Results:

For Laboratory use only

## Please Note:

3g of faeces is sufficient for this test, however, faeces submitted should be representative of the area sampled.

Suitable containers are available from the York laboratory. These containers should only be **half filled** and for hygiene reasons should not be placed directly in the bag with the submission forms. If you choose to use alternative packaging for samples, ensure that they are suitable for the purpose and are in compliance with the Post Office and Health and Safety regulations. N.B: Bags are not acceptable containers for faeces samples.

Should you have any queries please do not hesitate to contact the laboratory directly on 01904 620968 or alternatively email [laboratory@minstervets.co.uk](mailto:laboratory@minstervets.co.uk)

Please send me replacement faeces sampling kits: Number of kits required:
